The first 4 person team event for the year was held today, with two out the best four scores on the hole being added together to give the team score for each hole. While the field was smaller than usual, the feedback from today's event was positive. In the end there was a clear winner with the team consisting of Katelyn Keogh, Dave Morrow, Ben Porter and Nick Wheeler combining for an excellent team score of 97 points. Star of the day for the team was Katelyn who had her best ever round of 86 off the stick, and off a handicap of 26 it meant that she had an outstanding individual score of 48 points. As Nick commented, the rest of the team just hacked their way around the course and added the best score we could to Katelyn's. Last week it was noted that Andy's great score might have been attributed to not playing with his usual playing partner – could we say the same thing today about Katelyn? 😊 In second place, with a very good score of 92 points was Joe Bereza, Geoff Manley, Geoff Pryce and Matthew Schnell. Even though some of the players in this team were meeting each other for the first time today, they clearly got on and combined well as a team. The teams that placed third, fourth, and fifth all received balls. Dean Clack had a bit of a hard luck story on the back nine, with 5 putts lipping out and then to top it all off his putt on the last hit the edge of the cup and bounced back out onto the green. Robert Hale hit two excellent shots to the 2nd and 9th greens to win the NTP on those holes, while Greg Tearle and Lenny Porter were the sharpshooters on the 4th and 13th holes respectively. Craig Howe returned from holidays feeling refreshed and after winning the Pro NTP on the last he is no doubt feeling a bit happier as well.

**Upcoming Events and Pennants Results**
